1.0 Ucapan Presiden

Assalamualaikum warahmatullahi wabarakatuh dan salam sejahtera.

Terima kasih kepada semua ahli yang hadir pada Mesyuarat Agung Tahunan Ke-56 ini. Kehadiran dan sokongan ahli MABOPA amat saya hargai kerana ia mencerminkan komitmen kita bersama dalam memperkukuhkan industri penerbitan negara.

Sepanjang tahun ini, pelbagai usaha telah dan sedang dilaksanakan oleh MABOPA demi memastikan kepentingan penerbit tempatan terus dipelihara dan diberi perhatian sewajarnya. Antara perkara yang sedang diberi tumpuan ialah penganjuran Anugerah Buku MABOPA sebagai satu platform penghargaan kepada karya serta penerbitan berkualiti tinggi di Malaysia. Saya percaya pengiktirafan seperti ini penting dalam mengangkat standard industri dan memberi motivasi kepada para penerbit untuk terus menghasilkan karya terbaik.

Selain itu, kita juga sedang memperhalusi usaha berkaitan pengembalian hak cipta kepada penerbit dalam penerbitan buku teks di bawah Bahagian Sumber dan Teknologi Pendidikan. Perkara ini amat penting kerana hak cipta merupakan asas kepada kelangsungan industri penerbitan yang sihat dan mampan. MABOPA akan terus memainkan peranan dalam memperjuangkan hak serta kepentingan penerbit tempatan melalui perbincangan dan kerjasama dengan pihak berkaitan.

Di peringkat antarabangsa pula, penglibatan kita bersama IPA membuka ruang yang lebih luas untuk Malaysia memperkukuhkan kedudukan dalam industri buku global. Melalui jaringan dan kerjasama strategik ini, kita dapat berkongsi pandangan, memahami perkembangan semasa industri serta membawa suara penerbit tempatan ke platform antarabangsa.

Saya juga ingin memaklumkan bahawa MABOPA kini diberi kepercayaan untuk memegang jawatan Presiden ABPA sehingga hujung tahun ini. Amanah ini bukan sahaja satu

penghormatan kepada MABOPA, malah membuktikan bahawa peranan dan sumbangan kita di peringkat serantau semakin mendapat pengiktirafan.

Insya-Allah, satu lagi agenda besar yang sedang dalam perancangan ialah penganjuran IP Congress 2026 di Kuala Lumpur pada tahun hadapan. Penganjuran ini bakal menjadi platform penting untuk menghimpunkan pemain industri penerbitan dari dalam dan luar negara, di samping mempromosikan Malaysia sebagai pusat industri buku dan penerbitan di rantau ini.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) General

All accounting policies are consistent with those applied in the previous year.

(b) Accounting Convention

The financial statements of the Association have been prepared under the historical cost convention unless otherwise stated in the financial statements.

(c) PROPERTY, PLANT AND EQUIPMENT

The cost of an item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the Association and the cost of the item can be measured reliably. After recognition as an asset, an item of property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Depreciation is provided on a straight-line method so as to write off the depreciable amount of the following assets over their estimated useful lives, as follows :

	<u>Rate</u>
Furniture and fittings	10%
Office equipment	10%
Electrical installation	10%
Telephone installation	10%
Office building	2%
Renovation	10%

Depreciation of an asset begins when it is ready for its intended use.

If there is an indication of a significant change in factors affecting the residual value, useful life or asset consumption pattern since the last annual reporting date, the residual values, depreciation method and useful lives of depreciable assets are reviewed, and adjusted prospectively.

The carrying amounts of items of property, plant and equipment are derecognised on disposal or when no future economic benefits are expected from their use or disposal. Any gain or loss arising from the derecognition of items of property, plant and equipment, determined as the difference between the net disposal proceeds, if any, and the carrying amounts of the item, is recognised in the statement of income and expenditure. Neither the sale proceeds nor any gain on disposal is classified as revenue.

(d) Subsidiary Company

A subsidiary company is an entity over which the Group has control. The Group controls an entity when the Group is exposed to or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Investments in subsidiary is stated at costs less accumulated impairment losses, if any, in the Association's financial statements. On disposal of such investments, the difference between the net disposal proceeds and their carrying amount is recognised as gain or loss in Statement of Income and Expenditure.

(e) IMPAIRMENT OF ASSETS, OTHER THAN FINANCIAL ASSETS

At each reporting date, the Association assesses whether there is any indication that an asset, may be impaired. If any such indication exists, the recoverable amount of the asset is estimated.

When there is an indication that an asset may be impaired but it is not possible to estimate the recoverable amount of the individual asset, the Association estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The recoverable amount of an asset and a cash-generating unit is the higher of the fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or a cash-generating unit is less than the carrying amount, an impairment loss is recognised to reduce the carrying amount to its recoverable amount. An impairment loss for a cash-generating unit is firstly allocated to reduce the carrying amount of any goodwill allocated to the cash-generating unit, and then, to the other non-current assets of the unit pro rata on the basis of the carrying amount of each appropriate asset in the cash-generating unit. Impairment loss is recognised immediately in profit or loss, unless the asset is carried at a revalued amount, in which case it is treated as a revaluation decrease.

The recoverable amount is the higher of an asset's or cash-generating unit's fair value less to sell, value in use and zero.

An impairment loss recognised in prior periods for an asset or the appropriate assets of a cash-generating unit is reversed when there has been a change in the estimates used to determine the asset's recoverable amount. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised in prior periods. A reversal of an impairment loss is recognised immediately in profit or loss, unless the asset is carried at revalued amount, in which case it is treated as a revaluation increase.

(f) FINANCIAL ASSETS

Financial assets are recognised in the statement of financial position when the Association becomes a party to the contractual provisions of the instrument.

On initial recognised, financial assets are measured at transaction price, include transaction costs for financial assets not measured at fair value through profit or loss, unless the arrangement constitutes, in effect, a financing transaction for the counterparty to the arrangement.

After initial recognition, financial assets are classified into one of three categories: financial assets measured at fair value through profit or loss, financial assets that are debt instruments measured at amortised cost, and financial assets that are equity instruments measured at cost less impairment.

(a) Financial Assets At Fair Value Through Profit Or Loss

Financial assets are classified as at fair value through profit or loss when the financial assets are within the scope of Section 12 of the MPERS or if the financial assets are publicly traded or their fair value can otherwise be measured reliably without undue cost or effort.

Changes in fair value are recognised in profit or loss.

If a reliable measure of fair value is no longer available for an equity instrument that is not publicly traded but is measured at fair value through profit or loss, its fair value at the last date that instrument was reliably measurable is treated as the cost of the instrument, and it is measured at this cost amount less impairment until a reliable measure of fair value becomes available.

(b) Financial Assets That Are Debt Instruments Measured At Amortised Cost

After initial recognition, debt instruments are measured at amortised cost using the effective interest method. Debt instruments that are classified as current assets are measured at the undiscounted amount of the cash or other consideration expected to be received.

Effective interest method is a method of calculating the amortised cost of financial assets and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimate future cash receipts through the expected life of the financial assets or, when appropriate, a shorter period, to the carrying amount of the financial assets.

(c) Financial Assets That Are Equity Instruments Measured At Cost Less Impairment

Equity instruments that are not publicly traded and whose fair value cannot otherwise be measured reliably without undue cost or effort, and contracts linked to such instruments that, if exercised, will result in delivery of such instruments, are measured at cost less impairment.

(d) Impairment Of Financial Assets

At the end of each reporting period, the Association assesses whether there is any objective evidence that financial assets that are measured at cost or amortised cost, are impaired.

Objective evidence could include :

- significant financial difficulty of the issuer; or
- a breach of contract; or
- the lender granting to the borrower a concession that the lender would not otherwise consider; or
- it becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- observable data indicating that there is a measurable decrease in the estimated future cash flows from the financial assets since the initial recognition of those assets.

For certain category of financial assets, such as trade receivables, if it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the assets are included in a group with similar credit risk characteristics and collectively assessed for impairment.

Impairment losses, in respect of financial assets measured at amortised cost, are measured as the differences between the assets' carrying amounts and the present values of their estimated cash flows discounted at the assets' original effective interest rate.

If there is objective evidence that impairment losses have been incurred on financial assets measured at cost less impairment, the amount of impairment losses are measured as the difference between the asset's carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date.

The carrying amounts of the financial assets are reduced directly, except for the carrying amounts of trade receivables which are reduced through the use of an allowance account. Any impairment loss is recognised in profit or loss immediately. If, in subsequent period, the amount of an impairment loss decreases, the previously recognised impairment losses are reversed directly, except for the amounts related to trade receivables which are reversed to write back the amount previously provided in the allowance account. The reversal is recognised in profit or loss immediately.

(e) Derecognition Of Financial Assets

Financial assets are derecognised when the contractual rights to the cash flows from the financial assets expire, or are settled, or the Association transfers to another party substantially all of the risks and rewards of ownership of the financial assets.

On derecognition of financial assets in their entirety, the differences between the carrying amounts and the sum of the consideration received and any cumulative gains or losses are recognised in profit or loss in the period of the transfer.

(g) FINANCIAL LIABILITIES

Financial liabilities are recognised in the statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, financial liabilities are measured at transaction price, include transaction costs for financial liabilities not measured at fair value through profit or loss unless the arrangement constitutes, in effect, a financing transaction for the Company to the arrangement.

After initial recognition, financial liabilities are classified into one of three categories financial liabilities measured at fair value through profit or loss, financial liabilities measured at amortised cost, or loan commitments measured at cost less impairment.

i) Financial Liabilities Measured At Fair Value Through Profit Or Loss

Financial liabilities are classified as at fair value through profit or loss when the financial liabilities are within the scope of Section 12 of the MPERS or if the financial liabilities are publicly traded or their fair value can otherwise be measured reliably without undue cost or effort.

If a reliable measure of fair value is no longer available for an equity instrument that is not publicly traded but is measured at fair value through profit or loss, its fair value at the last date that instrument was reliably measurable is treated as the cost of the instrument, and it is measured at this cost amount less impairment until a reliable measure of fair value becomes available.

ii) Financial Liabilities Measured At Amortised Cost

After initial recognition, financial liabilities other than financial liabilities at fair value through profit or loss are measured at amortised cost using the effective interest method. Gains or losses are recognised in profit or loss when the financial liabilities are derecognised or impaired.

Effective interest method is a method of calculating the amortised cost of financial liabilities and of allocating the interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimate future cash payments through the expected life of the financial liabilities or, when appropriate, a shorter period, to the carrying amount of the financial liabilities.

iii) Loan Commitments Measured At Cost Less Impairment

Commitments to receive loan that meet the conditions of Section 11 of the MPERS are measured at cost less impairment.

iv) Derecognition Of Financial Liabilities

Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Any difference between the carrying amounts of the financial liabilities derecognised and the consideration paid is recognised in profit or loss.

(h) EMPLOYMENT BENEFITS

i) Short-Term Employment Benefits

Short-term employment benefits, such as wages, salaries and other benefits, are recognised at the undiscounted amount as a liability and an expense when the employees have rendered services to the Company.

The expected cost of accumulating compensated absences are recognised when the employees render services that increase their entitlement to future compensated absences. The expected cost of non-accumulating compensated absences, such as sick and medical leaves, are recognised when the absences occur.

The expected cost of accumulating compensated absences are measured at the undiscounted additional amount expected to be paid as a result of the unused entitlement that has accumulated at the end of the reporting period.

The expected cost of profit-sharing and bonus payments are recognised when the Company has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the Company has no realistic alternative but to make the payments.

ii) Defined Contribution Plan

Contributions payable to the defined contribution plan are recognised as a liability and an expense when the employees have rendered services to the Association.

(i) INCOME TAX

Tax expense is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income as also recognised in other comprehensive income.

Tax payable on taxable profit for current and past periods is recognised as a current tax liability to the extent unpaid. If the amount paid in respect of the current and past periods exceeds the amount payable for those periods, the excess is recognised as a current tax asset.

Current tax assets and liabilities are measured at the amounts expected to be paid or recovered, using the tax rates and laws that have been enacted or substantially enacted by the reporting date.

Current tax liabilities and assets are offset if, and only if the Company has a legally enforceable right to set off the amounts and plan either to settle on a net basis, or to realise that asset and settle the liability simultaneously.

Deferred tax is provided in full on temporary differences which are the differences between the carrying amounts in the financial statements and the corresponding tax base of an asset or liability at the end of the reporting period.

Deferred tax liabilities are recognised for all taxable temporary differences that are expected to increase taxable profit in the future. Deferred tax assets are recognised for all deductible temporary differences that are expected to reduce taxable profit in the future and the carry forward of unused tax losses and unused tax credits.

Deferred tax liabilities and assets are not recognised in respect of the temporary differences associated with the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transactions, affects neither accounting profit nor taxable profit. Deferred tax liabilities are not recognised for temporary difference associated with the initial recognition of goodwill.

Deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Company expects to recover or settle the carrying amounts of their assets and liabilities and are measured at the tax rates and laws that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantially enacted by the reporting date.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2025**

1. GENERAL INFORMATION

The Company is a private limited company, incorporated and domiciled in Malaysia.

The principal activities of the Company are organising publishers conferences, seminars, book exhibitions and other activities related to the book industries. There have been no significant changes in the nature of these activities during the year.

The registered office of the Company is located at Suite 226, 1st Floor, FAS Business Avenue, No. 1, Jalan Perbandaran, 47301 Petaling Jaya, Selangor Darul Ehsan.

The principal place of business is located at Unit 7-6, Block E2, Jalan PJU 1/42A, Dataran Prima, 47301 Petaling Jaya, Selangor Darul Ehsan.

The Company is a wholly owned subsidiary of Malaysian Book Publishers Association, an association registered in Malaysia, which is also regarded by the directors as the ultimate holding company.

The financial statements of the Company are presented in Ringgit Malaysia, which is also the functional currency of the Company.

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with Malaysian Private Entities Reporting Standard ('MPERS') and the requirements of the Companies Act, 2016 in Malaysia.

The financial statements have been prepared on the historical cost basis unless otherwise indicated in this summary of significant accounting policies. The principal accounting policies adopted are set out below :

2.1 PROPERTY, PLANT AND EQUIPMENT

The cost of an item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. After recognition as an asset, an item of property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Depreciation is provided on a straight-line method so as to write off the depreciable amount of the following assets over their estimated useful lives, as follows :

	<u>Rate</u>
Office equipment	10%
Furniture and fittings	10%

Depreciation of an asset begins when it is ready for its intended use.

If there is an indication of a significant change in factors affecting the residual value, useful life or asset consumption pattern since the last annual reporting date, the residual values, depreciation method and useful lives of depreciable assets are reviewed, and adjusted prospectively.

The carrying amounts of items of property, plant and equipment are derecognised on disposal or when no future economic benefits are expected from their use or disposal. Any gain or loss arising from the derecognition of items of property, plant and equipment, determined as the difference between the net disposal proceeds, if any, and the carrying amounts of the item, is recognised in profit or loss. Neither the sale proceeds nor any gain on disposal is classified as revenue.

2.2 IMPAIRMENT OF ASSETS, OTHER THAN DEFERRED TAX ASSETS AND FINANCIAL ASSETS

At each reporting date, the Company assesses whether there is any indication that an asset, may be impaired. If any such indication exists, the recoverable amount of the asset is estimated.

When there is an indication that an asset may be impaired but it is not possible to estimate the recoverable amount of the individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The recoverable amount of an asset and a cash-generating unit is the higher of the fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or a cash-generating unit is less than the carrying amount, an impairment loss is recognised to reduce the carrying amount to its recoverable amount. An impairment loss for a cash-generating unit is firstly allocated to reduce the carrying amount of any goodwill allocated to the cash-generating unit, and then, to the other non-current assets of the unit pro rata on the basis of the carrying amount of each appropriate asset in the cash-generating unit. Impairment loss is recognised immediately in profit or loss, unless the asset is carried at a revalued amount, in which case it is treated as a revaluation decrease.

The recoverable amount is the higher of an asset's or cash-generating unit's fair value less to sell, value in use and zero.

An impairment loss recognised in prior periods for an asset or the appropriate assets of a cash-generating unit is reversed when there has been a change in the estimates used to determine the asset's recoverable amount. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised in prior periods. A reversal of an impairment loss is recognised immediately in profit or loss, unless the asset is carried at revalued amount, in which case it is treated as a revaluation increase.

2.3 FINANCIAL ASSETS

Financial assets are recognised in the statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

On initial recognised, financial assets are measured at transaction price, include transaction costs for financial assets not measured at fair value through profit or loss, unless the arrangement constitutes, in effect, a financing transaction for the counterparty to the arrangement.

After initial recognition, financial assets are classified into one of three categories: financial assets measured at fair value through profit or loss, financial assets that are debt instruments measured at amortised cost, and financial assets that are equity instruments measured at cost less impairment.

i) Financial Assets At Fair Value Through Profit Or Loss

Financial assets are classified as at fair value through profit or loss when the financial assets are within the scope of Section 12 of the MPERS or if the financial assets are publicly traded or their fair value can otherwise be measured reliably without undue cost or effort.

Changes in fair value are recognised in profit or loss.

If a reliable measure of fair value is no longer available for an equity instrument that is not publicly traded but is measured at fair value through profit or loss, its fair value at the last date that instrument was reliably measurable is treated as the cost of the instrument, and it is measured at this cost amount less impairment until a reliable measure of fair value becomes available.

ii) Financial Assets That Are Debt Instruments Measured At Amortised Cost

After initial recognition, debt instruments are measured at amortised cost using the effective interest method. Debt instruments that are classified as current assets are measured at the undiscounted amount of the cash or other consideration expected to be received.

Effective interest method is a method of calculating the amortised cost of financial assets and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimate future cash receipts through the expected life of the financial assets or, when appropriate, a shorter period, to the carrying amount of the financial assets.

iii) Financial Assets That Are Equity Instruments Measured At Cost Less Impairment

Equity instruments that are not publicly traded and whose fair value cannot otherwise be measured reliably without undue cost or effort, and contracts linked to such instruments that, if exercised, will result in delivery of such instruments, are measured at cost less impairment.

iv) Impairment Of Financial Assets

At the end of each reporting period, the Company assesses whether there is any objective evidence that financial assets that are measured at cost or amortised cost, are impaired.

Objective evidence could include :

- significant financial difficulty of the issuer; or
- a breach of contract; or
- the lender granting to the borrower a concession that the lender would not otherwise consider; or
- it becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- observable data indicating that there is a measurable decrease in the estimated future cash flows from the financial assets since the initial recognition of those assets.

For certain category of financial assets, such as trade receivables, if it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the assets are included in a group with similar credit risk characteristics and collectively assessed for impairment.

Impairment losses, in respect of financial assets measured at amortised cost, are measured as the differences between the assets' carrying amounts and the present values of their estimated cash flows discounted at the assets' original effective interest rate.

If there is objective evidence that impairment losses have been incurred on financial assets measured at cost less impairment, the amount of impairment losses are measured as the difference between the asset's carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date.

The carrying amounts of the financial assets are reduced directly, except for the carrying amounts of trade receivables which are reduced through the use of an allowance account. Any impairment loss is recognised in profit or loss immediately. If, in subsequent period, the amount of an impairment loss decreases, the previously recognised impairment losses are reversed directly, except for the amounts related to trade receivables which are reversed to write back the amount previously provided in the allowance account. The reversal is recognised in profit or loss immediately.

v) Derecognition Of Financial Assets

Financial assets are derecognised when the contractual rights to the cash flows from the financial assets expire, or are settled, or the Company transfers to another party substantially all of the risks and rewards of ownership of the financial assets.

On derecognition of financial assets in their entirety, the differences between the carrying amounts and the sum of the consideration received and any cumulative gains or losses are recognised in profit or loss in the period of the transfer.

2.4 LIABILITIES AND EQUITY

i) Classification Of Liabilities And Equity

Financial liabilities and equity instruments are classified in accordance with the substance of the contractual arrangement, not merely its legal form, and in accordance with the definitions of a financial liability and an equity instrument.

ii) Equity Instruments

Ordinary shares are classified as equity.

Equity instruments are any contracts that evidence a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company, other than those issued as part of a business combination or those accounted for in paragraph 22.15A to 22.15B, are measured at the fair value of the cash or other resources received or receivable, net of transaction costs. If payment is deferred and the time value of money is material, the initial measurement shall be on a present value basis.

The Company accounts for the transaction costs of an equity as a deduction from equity. Income tax relating to the transaction costs is accounted for in accordance with Section 29 of the MPERS.

Distributions to owners are deducted from the equity. Related income tax is accounted for in accordance with Section 29 of the MPERS.

2.5 FINANCIAL LIABILITIES

Financial liabilities are recognised in the statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, financial liabilities are measured at transaction price, include transaction costs for financial liabilities not measured at fair value through profit or loss unless the arrangement constitutes, in effect, a financing transaction for the Company to the arrangement.

After initial recognition, financial liabilities are classified into one of three categories financial liabilities measured at fair value through profit or loss, financial liabilities measured at amortised cost, or loan commitments measured at cost less impairment.

i) Financial Liabilities Measured At Fair Value Through Profit Or Loss

Financial liabilities are classified as at fair value through profit or loss when the financial liabilities are within the scope of Section 12 of the MPERS or if the financial liabilities are publicly traded or their fair value can otherwise be measured reliably without undue cost or effort.

If a reliable measure of fair value is no longer available for an equity instrument that is not publicly traded but is measured at fair value through profit or loss, its fair value at the last date that instrument was reliably measurable is treated as the cost of the instrument, and it is measured at this cost amount less impairment until a reliable measure of fair value becomes available.

ii) Financial Liabilities Measured At Amortised Cost

After initial recognition, financial liabilities other than financial liabilities at fair value through profit or loss are measured at amortised cost using the effective interest method. Gains or losses are recognised in profit or loss when the financial liabilities are derecognised or impaired.

Effective interest method is a method of calculating the amortised cost of financial liabilities and of allocating the interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimate future cash payments through the expected life of the financial liabilities or, when appropriate, a shorter period, to the carrying amount of the financial liabilities.

iii) Loan Commitments Measured At Cost Less Impairment

Commitments to receive loan that meet the conditions of Section 11 of the MPERS are measured at cost less impairment.

iv) Derecognition Of Financial Liabilities

Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Any difference between the carrying amounts of the financial liabilities derecognised and the consideration paid is recognised in profit or loss.

2.6 REVENUE

Revenue is recognised upon delivery of goods and performance of services.

2.7 EMPLOYMENT BENEFITS

i) Short-Term Employment Benefits

Short-term employment benefits, such as wages, salaries and other benefits, are recognised at the undiscounted amount as a liability and an expense when the employees have rendered services to the Company.

The expected cost of accumulating compensated absences are recognised when the employees render services that increase their entitlement to future compensated absences. The expected cost of non-accumulating compensated absences, such as sick and medical leaves, are recognised when the absences occur.

The expected cost of accumulating compensated absences are measured at the undiscounted additional amount expected to be paid as a result of the unused entitlement that has accumulated at the end of the reporting period.

The expected cost of profit-sharing and bonus payments are recognised when the Company has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the Company has no realistic alternative but to make the payments.

ii) *Defined Contribution Plan*

Contributions payable to the defined contribution plan are recognised as a liability and an expense when the employees have rendered services to the Company.

2.8 INCOME TAX

Tax expense is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income is also recognised in other comprehensive income.

Tax payable on taxable profit for current and past periods is recognised as a current tax liability to the extent unpaid. If the amount paid in respect of the current and past periods exceeds the amount payable for those periods, the excess is recognised as a current tax asset.

Current tax assets and liabilities are measured at the amounts expected to be paid or recovered, using the tax rates and laws that have been enacted or substantially enacted by the reporting date.

Current tax liabilities and assets are offset if, and only if the Company has a legally enforceable right to set off the amounts and plan either to settle on a net basis, or to realise that asset and settle the liability simultaneously.

Deferred tax is provided in full on temporary differences which are the differences between the carrying amounts in the financial statements and the corresponding tax base of an asset or liability at the end of the reporting period.

Deferred tax liabilities are recognised for all taxable temporary differences that are expected to increase taxable profit in the future. Deferred tax assets are recognised for all deductible temporary differences that are expected to reduce taxable profit in the future and the carry forward of unused tax losses and unused tax credits.

Deferred tax liabilities and assets are not recognised in respect of the temporary differences associated with the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transactions, affects neither accounting profit nor taxable profit. Deferred tax liabilities are not recognised for temporary difference associated with the initial recognition of goodwill.

Deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Company expects to recover or settle the carrying amounts of their assets and liabilities and are measured at the tax rates and laws that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantially enacted by the reporting date.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

3.1 CRITICAL JUDGEMENTS IN APPLYING THE ACCOUNTING POLICIES

There were no critical judgements made by management in the process of applying the accounting policies that have a significant effect on the amounts recognised in the financial statements.

3.2 KEY SOURCES OF ESTIMATION UNCERTAINTY

Except as stated below, there were no key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to be made in the carrying amounts of assets and liabilities within the next year.

a) Impairment of receivables

The Company makes impairment of receivables, based on an assessment of the recoverability of receivables. Impairment is applied to receivables where events or changes in circumstances indicate that the carrying amounts may not be recoverable. Management specifically analyses historical bad debts, customer concentration, customer creditworthiness, current economic trends and changes in customer payment terms when making a judgement to evaluate the adequacy of impairment of receivables. Where expectations differ from the original estimates, the differences would impact the carrying amount of receivables.

b) Measurement of income taxes

Significant judgement is required in determining the Company's estimation for current and deferred taxes because the ultimate tax liability of the Company as a whole is uncertain. When the final outcome of the tax payable is determined with the tax authority, the amount might be different from the initial estimates of the tax payable. Such differences may impact the current and deferred taxes in the period when such determination is made. The Company will adjust for the differences as over or under provision of current or deferred taxes in the current period in which those differences arise.

YBrs. Puan ,

KESAN PELAKSANAAN SST DAN INFLASI KOS KE ATAS KONTRAK BUKU TEKS CETAK SEMULA (BCS)

Dengan segala hormatnya, kami rujuk kepada perkara di atas.

Pihak MABOPA mengucapkan terima kasih kepada BSTP bagi pesanan Buku Teks Cetak Semula melalui kontraktor pembekalan baru-baru ini. Pihak kami dengan rendah diri meminta pihak BSTP mempertimbangkan peningkatan harga buku teks BCS oleh kerana SST dan impak kos lain.

1. Latar belakang

Kontrak-kontrak BCS menetapkan harga pada kadar asal ketika buku diterbitkan. Mulai 1 Julai 2025, kertas cetak dikenakan *sales tax* 10 %, perkhidmatan percetakan kekal 8 % dan logistik/gudang kini tertakluk *service tax* 6 %. Selain itu kenaikan harga kertas, dakwat, gaji minimum, tarif elektrik dan diesel yang berlaku sejak 2024 juga telah meningkatkan kos buku.

2. Impak kos SST dan Inflasi

Pihak MABOPA menganggarkan bahawa SST akan meningkatkan kos buku teks BCS sebanyak 6 %.

Selain itu, inflasi kos bukan cukai, iaitu kenaikan harga kertas, dakwat, gaji minimum, tarif elektrik dan diesel yang berlaku sejak 2024 dianggarkan mengakibatkan peningkatan kos buku teks BCS sebanyak 3-5%.

Ringkasnya: kos buku teks BCS keseluruhan kini dianggarkan meningkat 9% - 11% berbanding tahun 2024.

Rujukan kami: mabopa/bstp/2025(2)

(Nota: Bayaran 2% kepada KWSP bagi pekerja asing daripada bulan Oktober tidak disertakan dalam anggaran ini).

3. Risiko kepada bekalan buku teks

Dengan mengambil kira pesanan BCS yang hanya memerlukan kuantiti cetakan yang sangat rendah, bersama impak SST dengan inflasi kos lain, pihak penerbit boleh menghadapi kerugian daripada cetakan bahan BCS dengan harga kontrak asal. Di sini terdapat risiko bahawa penerbit yang tidak dapat menangani kos tersebut mungkin tidak dapat menyediakan buku teks BCS, sekaligus menjejaskan bekalan, dan/atau kualiti buku teks.

4. Permohonan MABOPA

- a. Meluluskan penyelarasan harga kontrak BCS sekurang-kurangnya bersamaan SST + Inflasi kos-kos lain.
- b. Mempertimbangkan pilihan pengecualian SST bagi aktiviti berkait buku sebagai langkah jangka panjang.

Pihak MABOPA meminta jasa baik Puan untuk mempertimbangkan isu ini. Pihak kami sedia membincangkan perkara ini selanjutnya dengan pihak BSTP.

Sekian, terima kasih

YBrs. Puan,

SEBUTHARGA PERKHIDMATAN PEMBANGUNAN BAHAN DIGITAL (VI, LO DAN LAIN-LAIN)

Dengan segala hormatnya perkara di atas adalah dirujuk.

2. Persatuan Penerbit Buku Malaysia (MABOPA) mengalu-alukan dan menghargai usaha Bahagian Sumber dan Teknologi Pendidikan (BSTP) untuk memodenkan bahan pembelajaran dengan penyediaan kandungan digital. Usaha sebegini pastinya dapat menaikkan taraf kualiti pendidikan negara.

3. Hasil penelitian dan maklum balas daripada ahli-ahli kami, beberapa perkara berbangkit dalam usaha pembangunan kandungan digital ini yang memerlukan perhatian dan pertimbangan pihak BSTP demi memastikan kualiti bahan serta kelestarian ekosistem penerbitan tempatan terpelihara.

a. Penetapan Harga Perkhidmatan

Harga siling yang ditetapkan dalam sebutharga terkini terlalu rendah berbanding skop kerja yang merangkumi pelbagai aspek termasuk perancangan pedagogi, penulisan, ilustrasi, animasi, interaktiviti, dan penilaian oleh pengguna. Akibatnya, banyak penerbit mapan tidak dapat menyertai kerana kos sebenar melebihi peruntukan. Situasi ini boleh

menjejaskan kualiti bahan serta meminggirkan kepakaran industri yang telah terbukti selama ini.

b. Pengelompokan Bahasa Cina dan Tamil

Bahasa Cina dan Bahasa Tamil telah digabungkan dalam satu sebutharga. Kedua-dua mata pelajaran ini mempunyai silibus, pendekatan pedagogi, dan ekosistem penerbitan yang berbeza. Pengelompokan ini menyukarkan penyertaan penerbit yang mempunyai kepakaran sesuatu bidang. Ini boleh mengakibatkan penghasil kandungan yang terlibat menghasilkan kandungan yang kurang tepat dan tidak sensitif budaya. Pendekatan begini juga dapat menjejaskan kelestarian sektor-sektor kecil dalam ekosistem penerbitan yang bergantung kepada pendapatan daripada aktiviti khusus (contohnya penghasilan bahan dalam bahasa ibunda negara).

c. Kos Bengkel & Penilaian

Sebutharga mewajibkan penghasil kandungan menanggung kos bengkel, termasuk penginapan penilai KPM. Kos penilaian dan penaiktarafan seharusnya dibiayai oleh KPM seperti amalan tender terdahulu. Ini kerana agar dana yang diperuntukkan benar-benar dapat dimanfaatkan untuk penghasilan kandungan berkualiti.

d. Ketelusan Maklumat Kontrak

Maklumat terperinci kos bengkel tidak dinyatakan secara jelas dalam dokumen sebutharga. Pemenang hanya dapat tahu aspek ini pada waktu untuk menandatangani Surat Setuju Terima (SST). Pemenang sebutharga tiada ruang masa yang munasabah untuk meneliti dan membangkitkan perkara ini sebelum menandatangani SST.

4. Sehubungan ini, MABOPA memohon pertimbangan BSTP untuk tender dan sebutharga masa depan:

- a. Menyemak semula struktur harga agar selaras dengan kos sebenar penyediaan kandungan digital berkualiti.
- b. Mengasingkan sebutharga Bahasa Cina dan Bahasa Tamil supaya setiap segmen dapat dilayani mengikut keperluan pedagogi dan industri masing-masing.
- c. Memohon KPM menanggung segala kos bengkel/penilaian, dan mengeluarkan perbelanjaan tersebut daripada komponen harga kandungan daripada penerbit.

Rujukan kami: mabopa/bstp/2025(1)

- d. Memastikan dokumen dengan jelas menyatakan semua obligasi kos lebih awal dalam iklan sebutharga, bagi mengelakkan salah faham serta melindungi integriti proses perolehan.
5. Kami percaya penambahbaikan ini akan memupuk pertandingan sihat, dan meningkatkan kualiti bahan digital, di samping menyokong Dasar Pendidikan Digital KPM.
6. Segala kerjasama dan pertimbangan pihak Puan amat dihargai. MABOPA mengucapkan terima kasih atas komitmen BSTP dalam memajukan pendidikan negara.

Sekian, terima kasih.

YBrs. Puan Aniza Binti Kamarulzaman,

SEBUTHARGA PERKHIDMATAN PEMBANGUNAN BAHAN DIGITAL (VI, LO DAN LAIN-LAIN)

Dengan segala hormatnya perkara di atas adalah dirujuk.

2. Persatuan Penerbit Buku Malaysia (MABOPA) mengalu-alukan dan menghargai usaha Bahagian Sumber dan Teknologi Pendidikan (BSTP) untuk memodenkan bahan pembelajaran dengan penyediaan kandungan digital. Usaha sebegini pastinya dapat menaikkan taraf kualiti pendidikan negara.

3. Hasil penelitian dan maklum balas daripada ahli-ahli kami, beberapa perkara berbangkit dalam usaha pembangunan kandungan digital ini yang memerlukan perhatian dan pertimbangan pihak BSTP demi memastikan kualiti bahan serta kelestarian ekosistem penerbitan tempatan terpelihara.

a. Penetapan Harga Perkhidmatan

Harga siling yang ditetapkan dalam sebutharga terkini terlalu rendah berbanding skop kerja yang merangkumi pelbagai aspek termasuk perancangan pedagogi, penulisan, ilustrasi, animasi, interaktiviti, dan penilaian oleh pengguna. Akibatnya, banyak penerbit mapan tidak dapat menyertai kerana kos sebenar melebihi peruntukan. Situasi ini boleh menjejaskan kualiti bahan serta meminggirkan kepakaran industri yang telah terbukti selama ini.

b. Pengelompokan Bahasa Cina dan Tamil

Bahasa Cina dan Bahasa Tamil telah digabungkan dalam satu sebutharga. Kedua-dua mata pelajaran ini mempunyai silibus, pendekatan pedagogi, dan ekosistem penerbitan yang berbeza. Pengelompokan ini menyukarkan penyertaan penerbit yang mempunyai kepakaran sesuatu bidang. Ini boleh mengakibatkan penghasil kandungan yang terlibat menghasilkan kandungan yang kurang tepat dan tidak sensitif budaya. Pendekatan begini juga dapat menjejaskan kelestarian sektor-sektor kecil dalam ekosistem penerbitan yang bergantung kepada pendapatan daripada aktiviti khusus (contohnya penghasilan bahan dalam bahasa ibunda negara).

c. Kos Bengkel & Penilaian

Sebutharga mewajibkan penghasil kandungan menanggung kos bengkel, termasuk penginapan penilai KPM. Kos penilaian dan penakrifan seharusnya dibiayai oleh KPM seperti amalan tender terdahulu. Ini kerana agar dana yang diperuntukkan benar-benar dapat dimanfaatkan untuk penghasilan kandungan berkualiti.

d. Ketelusan Maklumat Kontrak

Maklumat terperinci kos bengkel tidak dinyatakan secara jelas dalam dokumen sebutharga. Pemenang hanya dapat tahu aspek ini pada waktu untuk menandatangani Surat Setuju Terima (SST). Pemenang sebutharga tiada ruang masa yang munasabah untuk meneliti dan membangkitkan perkara ini sebelum menandatangani SST.

4. Sehubungan ini, MABOPA memohon pertimbangan BSTP untuk tender dan sebutharga masa depan:

- a. Menyemak semula struktur harga agar selaras dengan kos sebenar penyediaan kandungan digital berkualiti.
- b. Mengasingkan sebutharga Bahasa Cina dan Bahasa Tamil supaya setiap segmen dapat dilayani mengikut keperluan pedagogi dan industri masing-masing.
- c. Memohon KPM menanggung segala kos bengkel/penilaian, dan mengeluarkan perbelanjaan tersebut daripada komponen harga kandungan daripada penerbit.
- d. Memastikan dokumen dengan jelas menyatakan semua obligasi kos lebih awal dalam iklan sebutharga, bagi mengelakkan salah faham serta melindungi integriti proses perolehan.

5. Kami percaya penambahbaikan ini akan memupuk pertandingan sehat, dan meningkatkan kualiti bahan digital, di samping menyokong Dasar Pendidikan Digital KPM.

6. Segala kerjasama dan pertimbangan pihak Puan amat dihargai. MABOPA mengucapkan terima kasih atas komitmen BSTP dalam memajukan pendidikan negara.

Sekian, terima kasih.

Findings

Member Reported Market Information

Note:

Conditions are evolving.

Some observations reflect major segments of a market rather than every channel nationwide.

Seven Textbook Markets at a Glance

Feature	Australia	Indonesia	Malaysia	New Zealand	Philippines	Singapore	Thailand
Regulatory Model	No formal regulation. <i>(Indirect regulation via public funding and procurement)</i>	Government publishing Approval for supplemental titles	Government publishing Approval w limited offer	No formal regulation. <i>(Rising central provision)</i>	Approval w limited offer	Approval Government publishing <i>(Commissioned)</i>	Government publishing Approval w limited offer
Who purchases	Parents Schools	Schools State Government Fed Government	Government	Schools Some by Ministry	Government	Parents	Schools Government
Digital posture	Strong shift from print-only to digital-first and blended materials	Digitalisation still uneven; strong current push around coding and AI	Print-led with digital extras hosted on govt platforms	Print still important; digital exists but is not dominant	Print-led with digital extras	More digital content from Grade 7 onward	Multiple digital initiatives, but outcomes have been mixed

 = More Centralised

Challenges

Recurring Issues

Government roles expanding: regulator, buyer, publisher, competitor

Thailand: ministry-linked publishing competes with private publishers.

New Zealand: government-funded maths provision is reducing room for local publishers.

Australia: centralisation in curriculum, resource development, and procurement is increasing.

Policy and curriculum change are putting pressure on publishing timelines and investment

Indonesia: repeated curriculum change has forced constant revision and created instability; coding and AI rollout remains unclear in practice.

Philippines: policy intent and implementation are not always aligned in procurement.

Singapore & Malaysia: textbook tenders are increasingly hybrid print-digital.

Challenges

Recurring Issues

In most markets, publisher-government engagement remains limited or uneven.

Push for digital content continues to be strong

In general, AI related issues are less immediate compared to other issues (Exception: Australia: proposed TDM exception matter).

Positive Signals

Australia: publishers successfully resisted a broad AI text-and-data-mining exception; licensing-based frameworks are being explored. **Cross-industry rights advocacy** is effective.

Indonesia: government has earmarked 10% of school funding for books. Improved funding base of publishers.

Philippines: government purchasing of supplementary and library books has resumed after a long hiatus. Improved funding base of publishers. **Increasing importance given to reading related initiatives.**

Malaysia: recent tenders have introduced an indicative pricing band. Potentially reduces “race to the bottom” pricing issues. Lobbying efforts previously highlighted low book prices, their impact on book quality, and **educational outcomes.**

EPF reflection

Where we are and what we can do

Global EPF Principles: Choice, Local solutions, Collaboration

No uniform trend. Progress (or regress) depends on country and issue.

What ASEAN+ may be able to contribute next

- more structured comparative intelligence
- better sharing of practical publisher strategies and their outcomes
- PISA as policy driver; linking industry needs to educational outcomes
- Expert knowledge sharing

Thank You

السَّلَامُ عَلَيْكُمْ وَرَحْمَةُ اللَّهِ وَبَرَكَاتُهُ

YBrs. Tuan Mohd Khair Ngadiron,

RAKAN KOLABORASI MADE IN KL @SEMUA HOUSE

Dengan segala hormatnya, saya merujuk kepada perkara di atas.

2. Persatuan Penerbit Buku Malaysia (MABOPA) dengan kerjasama Buku Fixi, The Patriots dan Semua House akan menganjurkan *Made in KL @Semua House* (MIKL@SH) mulai 30 Ogos 2025 hingga 1 September 2025 bertempat di Semua House, Kuala Lumpur, 10.00 pagi hingga 8.00 malam.

3. *Made In KL @Semua House* merupakan sebuah acara buku dan kraf hasil tempatan yang meraikan kreativiti serta bakat penulis dan pereka kraf dari Malaysia. Edisi sulung acara ini diadakan dengan kerjasama Semua House KL, yang kini berwajah baharu sebagai rakan kongsi lokasi rasmi kami.

Berlangsung sempena hujung minggu Hari Kebangsaan, acara ini bakal menghimpunkan peminat buku, penerbit, penulis, penggiat seni dan kraf, serta komuniti kreatif dari seluruh Lembah Klang. *Made In KL* bukan sahaja mengetengahkan produk tempatan, tetapi juga menjadi platform untuk menjalin hubungan antara pengkarya dan pengunjung.

4. Sehubungan dengan itu, MABOPA dengan sukacitanya menjemput Urusetia Majlis Buku Kebangsaan Malaysia (MBKM) untuk menjadi rakan kolaborasi MIKL@SH. Diharapkan jalinan kerjasama ini bukan sahaja dapat memberi manfaat kepada penerbit dan industri buku tanah air, malah turut memberi impak positif kepada pencinta buku serta warga Kuala Lumpur dan kawasan sekitarnya.

5. Untuk makluman YBrs. tuan, **penyertaan MBKM sebagai rakan kolaborasi tidak melibatkan sebarang kos**. Namun begitu, MABOPA amat menghargai sekiranya pihak MBKM dapat

mabopa/mikl@sh/2025(1)

bersama-sama mempromosikan acara ini dan memberi kebenaran penggunaan logo rasmi MBKM dalam semua bahan promosi berkaitan Made In KL @Semua House.

6. Di samping itu, MABOPA turut menawarkan pakej-pakej penajaan kepada para penerbit serta mana-mana pihak yang berminat untuk menyokong penganjuran MIKL@SH. Justeru itu, MABOPA memohon kerjasama MBKM bagi membolehkan penaja kami mendapat potongan cukai pendapatan di bawah Subseksyen 44(11C), Akta Cukai Pendapatan 1967, selaras dengan pelaksanaan aktiviti perbukuan dan pembudayaan membaca seperti MIKL@SH ini.

Walaikumussalam W.B.T

Tuan,

Terima kasih atas maklum balas tuan untuk permohonan kunjungan hormat ke Perpustakaan Negara Malaysia (PNM). Kami amat menghargai usaha ini serta peluang untuk mengadakan perbincangan bersama YBrs. Tuan KP PNM.

Walau bagaimanapun, kami ingin memaklumkan bahawa kami **tidak dapat hadir pada tarikh yang dicadangkan** memandangkan Pesta Buku Antarabangsa Kuala Lumpur (PBAKL) baru sahaja bermula dan kami juga perlu menghadiri mesyuarat Exco ASEAN *Book Publishers Association* (ABPA) yang dijadualkan pada hari tersebut dari pukul 10.30 pagi hingga 5.00 petang.

Sehubungan itu, kami berharap agar kunjungan hormat ini dapat dijadualkan semula pada tarikh yang lain yang lebih sesuai. Kami amat berbesar hati untuk meneruskan kunjungan tersebut pada masa yang akan datang, dan sedia mempertimbangkan cadangan tarikh alternatif daripada pihak tuan.

Segala kesulitan yang timbul amat kami kesali dan saya dahului dengan ucapan terima kasih atas kefahaman serta kerjasama tuan.

16 - 19 JUNE 2025
 19th Congress of Southeast Asian Librarians General Conference and Meeting (CONSAL XIX)

INTRODUCING

The Congress of Southeast Asian Librarians (CONSAL) was established in Singapore in 1970. It was initiated by the library associations of Malaysia and Singapore, who saw a need to unite librarians from the ASEAN nations under a common banner. A Constitution was drawn up for CONSAL that subsequently led to its formation. The five founding member countries were Indonesia, Malaysia, Philippines, Singapore, and Thailand. Throughout the years, CONSAL has welcomed Brunei, Cambodia, Laos, Myanmar, and Vietnam as new members. The primary decision-making body of CONSAL is the Executive Board.

OBJECTIVES

- 1 To establish and strengthen relations among librarians, libraries, library schools, library associations and related organizations in the region;
- 2 To promote cooperation in the fields of librarianship, library and information sciences, documentation, information, and related activities in the region; and
- 3 To cooperate with other regional and international organizations and institutions in the fields of librarianship, library and information sciences, documentation, information, and related activities.
