INTRODUCTION

This catalogue contains all of the active titles of UiTM Press.

ORDER

Orders can be made directly to UiTM Press via:

<https://forms.gle/JzZiyT7Z7ebbH1xr6>

Delivery cost is based on the current rate by our appointed courier, Pos Laju.

Delivery period is within three (3) days for Peninsular Malaysia and five (5) days for Sabah and Sarawak from the date of payment, once proof of payment has been received.

PAYMENT METHOD

Cash and cash deposit payable to UiTM Press, Bank Islam Malaysia Bhd (BIMB).

Account no:

1203 8010 1060 04

REPLACEMENT

Damaged or lost books will only be replaced if the damage or loss is caused by us. We only receive claims for replacement within 14 days from the date of delivery receipt. Each book return must be enclosed with payment receipt.

BUSINESS HOURS

Monday - Thursday

08:30 - 13:00 / 14:00 - 16:30

Friday

08:30 - 12:00 / 14:45 - 16:30

SUSTAINING OUR PLANET ENVIRONMENTAL CONSERVATION PAHANG NATIONAL PARK

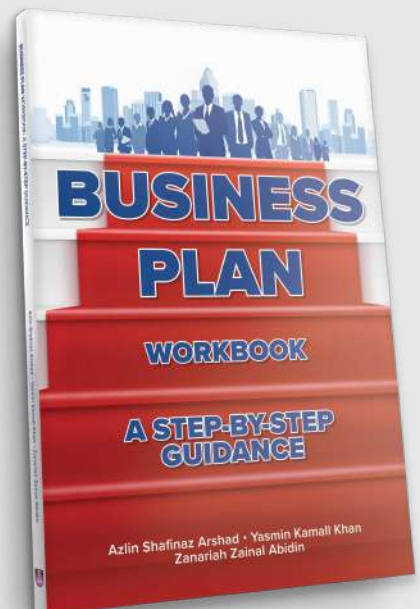

THIS book provides a profound exploration of Pahang National Park, one of Malaysia's most biodiverse rainforests and a global conservation hotspot. Combining research on the remarkable diversity, ecological significance, and local community involvement in Taman Negara Pahang's rainforests, the publication highlights the importance of effective policy and governance in advancing sustainable development and fostering environmental stewardship. The publication represents a significant milestone for Universiti Teknologi MARA (UiTM) in advancing its research agenda, emphasizing interdisciplinary studies and producing impactful works for scientific and public engagement. We hope this book will inspire a deeper appreciation for Malaysia's unique natural heritage and expand understanding of its biological treasures. This book also serve as a reminder of our shared responsibility to protect these irreplaceable resources and ensure their sustainability for future generations.

Editors: FAEZAH PARDI, BADLI ESHAM AHMAD, MUHAMMAD FUAD ABDULLAH, SITI AEKBAL SALLEH, YARINA AHMAD | 261 pages | ISBN 978-629-496-103-6 | RM205.00

BUSINESS PLAN WORKBOOK: A STEP BY STEP GUIDANCE

EVERY new business starts with a great idea. Entrepreneurs have identified a business that is unique in the product or service that they are planning to offer, or they believe they see an opportunity where they can provide a product or service that is better, faster, or cheaper. Either way, entrepreneurs need to ask themselves some questions about their business idea just to make sure they realistically evaluate the potential of their business. This workbook is intended to help entrepreneurs prepare for their businesses and deals with an important phase of the start-up process. Entrepreneur must try to fulfil these five sections by addressing all the items that apply to their business. However, not all items apply to all businesses. If the entrepreneur finds it difficult to address several applicable items in the workbook sections, more research needs to be carried out.

MEMBUDAYAKAN INOVASI DAN MELESTARIKAN KREATIVITI

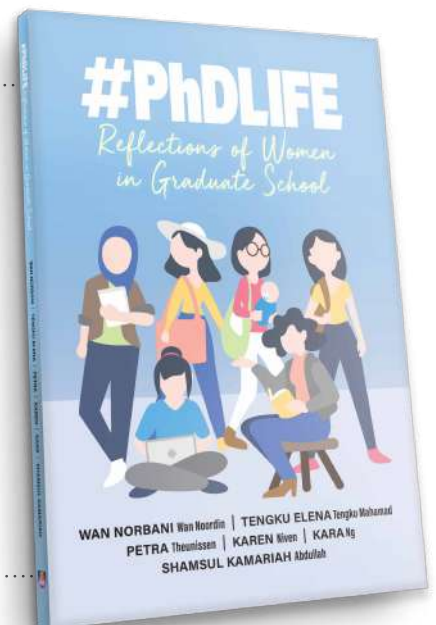

INOVASI merujuk kepada proses atau hasil penciptaan sesuatu yang baharu dengan melakukan perubahan yang signifikan terhadap sesuatu yang sedia ada, baik dalam bidang produk, proses atau kaedah. Ini mencakupi pengembangan kepada idea-idea baharu, penemuan teknologi baharu atau penggunaan yang lebih efisien menerusi sumber tenaga yang ada untuk menciptakan nilai tambah terhadap inovasi yang ingin dihasilkan. Bidang inovasi dalam KIK terbahagi kepada dua jenis iaitu Inovasi Sosial dan Inovasi Penyampaian Perkhidmatan yang terdiri daripada dua kategori iaitu Inovasi Penciptaan dan Inovasi Penambahbaikan. Fasa penghasilan, Pengiktirafan, dan Pengembangan; merupakan kunci dalam memastikan projek inovasi dapat dibangunkan, diiktiraf dan diterapkan secara meluas. Setiap fasa ini memerlukan perancangan, sokongan sumber dan strategi yang berkesan dalam memastikan kejayaan dan impak jangka panjang inovasi yang dihasilkan. "Thinking is difficult, that's why most people judge-Carl Jung." Hakikatnya sebenar, berfikir itu bukanlah sesuatu yang susah khususnya apabila melibatkan proses penjaan idea. Maka, buku ini bakal mengupas secara lanjut berkenaan proses awal penghasilan sebuah produk inovasi sehinggalah ke peringkat perlindungan harta intelek.

ANAK AUTISME: TERAPI DAN SOKONGAN (EDISI KEDUA)

BUKU ini adalah buku yang dihasilkan bersama-sama tiga orang terapis yang mahir dan berpengalaman dalam tiga bidang yang berbeza iaitu psikologi, bahasa dan pertuturan serta cara kerja. Edisi kedua ini membawa pembaca mengenali kriteria diagnostik gangguan spektrum autisme menggunakan *The Diagnostic and Statistical Manual of Mental Disorders (DSM-5)*. Antara aspek penting yang dihuraikan dalam buku ini adalah berkaitan dengan intervensi tingkah laku, komunikasi serta cara kerja, selain mengetengahkan dua kajian kes yang melibatkan penilaian dan terapi sebagai panduan pembaca. Penulis berharap **Anak Autisme: Terapi dan Sokongan (Edisi Kedua)** dapat memberi panduan mengenai penjagaan anak autisme secara menyeluruh kepada ibu bapa, guru-guru, ahli profesional, dan masyarakat umum.

KEY FEATURE QUESTIONS IN FAMILY MEDICINE A COMPILATION OF PRACTICE PAPERS

THIS book is published to provide KFQ practice papers in the areas of Family Medicine for medical undergraduate and postgraduate students. This book can be used as a guide for students to enhance their clinical decision-making skills and exam preparation in common cases seen in family medicine. This book contains six sets of practice papers with a total of 36 KFQ altogether. Answers, explanations and reasoning are provided following the practice papers based on updated evidence-based medicine. The authors of this book have vast clinical and academic experience in the area of Family Medicine. They are extensively involved in developing, vetting and conducting examinations at the national level for both undergraduate and postgraduate students.

WINNING RESEARCH PROPOSAL: A SIMPLE & QUICK GUIDE

THIS book is a must-have for all researchers and those who wish to embark on a research journey. This book helps readers understand the basic concepts of a research proposal, guides them along the writing process, and provides a checklist to make sure no essential component is missed. For many students and beginners, developing a research proposal can be a daunting task. It is therefore hoped that this 'simple and quick guide' can clarify difficult topics, highlight common mistakes, and break down complex themes into a step-by-step exercise. From title formulation to conceptual framework, and sampling methods to data analysis, *Research Proposal: A Simple & Quick Guide* is the best companion to make your research proposal journey a pleasant and meaningful experience.

CONTROL SYSTEMS ANALYSIS AND DESIGN THEORY

THE first edition of *Control Systems: Analysis and Design Theory* provides comprehensive coverage of the fundamentals of control systems, including mathematical concepts that apply to solve engineering problems. The emphasis is covered on conceptual control systems theory, state space analysis, root locus, and frequency response design techniques. The root locus and frequency response covered the control system analysis. Numerous practice problems well support this edition and include clear illustrations throughout the book to achieve the course outcome so that students will be able to implement control systems techniques to perform analysis of complex engineering problems, determine a relevant and appropriate controller that meets the desired requirements for solving complex engineering problems, and lastly demonstrate the usage of modern engineering software in designing controllers for solving complex engineering problems.

LABORATORY MANUAL FOR PHYSICAL CHEMISTRY (SECOND EDITION)

PHYSICAL chemistry is an essential branch of chemistry as it explores other branches of chemistry including inorganic, organic, biochemistry, geochemistry, and chemical engineering. Physical chemistry uses physical principles, chemical principles, and mathematics to understand and explain the properties and processes that matter undergoes on a molecular and atomic level. *Laboratory Manual for Physical Chemistry* is an essential tool to provide the hands-on practical experience needed for complete learning of the introductory physical chemistry course. It is written in an easily readable style for undergraduate students.

101 INNOVATION A JOURNEY THROUGH UiTM TECHNOLOGICAL MARVELS

THIS book is a comprehensive collection showcasing the Innovative products developed by researchers at Universiti Teknologi MARA (UiTM). With a dedication to advancing knowledge and addressing real-world challenges, UiTM researchers have developed a diverse array of products across various fields. This book is designed to serve as a valuable resource for UiTM staff, local and international industries, and individuals seeking cutting-edge innovations. Whether you are looking to collaborate with UiTM researchers, explore new technologies, or discover solutions to Industry needs, you will find a wealth of opportunities within these pages. Each product featured in this book represents the culmination of rigorous research, creative ingenuity, and a commitment to excellence.

From breakthroughs in healthcare and biotechnology to advancements in engineering, information technology, and beyond, UiTM researchers are at the forefront of innovation. We invite you to explore this book and discover the transformative potential of UiTM research products. Whether you are a seasoned Industry professional, an aspiring entrepreneur, or simply curious about the latest innovations, we are confident that you will find Inspiration and opportunity within these pages. Thank you for joining us on this journey of exploration and discovery. Together, let's unlock the future with UiTM research products.

Publications 2024

BAHASA MANDARIN MODEN KOMPREHENSIF (1) 现代华语综合课本(一) **COMPREHENSIVE MODERN MANDARIN LANGUAGE (1)**

ONE of the main challenges for non-native learners in learning Mandarin as L2/L3 is their lack in effective communication in the targeted language they are learning. Consequently, this book is timely in addressing this lack. Seven main characters were created in the writing of this book to make it interesting. Learners are exposed to aspects of Mandarin communication which occurs in the everyday lives of the characters mentioned. In addition, Chinese characters which are commonly used are also introduced through this book. The dialogues in this book have been specially created to fulfil the social context in Malaysia. This is important to ensure that learners can communicate effectively in the context of the Chinese community in Malaysia.

Salah satu cabaran utama para pelajar bukan penutur jati dalam pembelajaran bahasa Mandarin sebagai B2/B3 ialah mereka kurang berpeluang untuk berkomunikasi dalam bahasa sasaran yang dipelajari. Oleh itu, penulisan buku ini adalah bertujuan untuk menampung kekurangan tersebut. Buku ini ditulis secara menarik dengan mewujudkan tujuh watak utama. Para pelajar akan didedahkan kepada aspek komunikasi bahasa Mandarin yang berlaku dalam kehidupan harian watak-watak utama tersebut. Di samping itu, karakter Cina yang biasa digunakan juga turut diperkenalkan melalui buku ini. Dialog-dialog dalam buku ini adalah direka khas agar menepati konteks sosial di Malaysia. Hal ini penting untuk menjamin para pelajar dapat berkomunikasi secara berkesan dengan masyarakat Cina di Malaysia.

FALSAFAH DAN ISU SEMASA

TERDAPAT lapan (8) bab yang membincangkan tentang pengenalan ilmu falsafah termasuk Falsafah Pendidikan Kebangsaan dan Rukun Negara. Penulisan ini turut memberi fokus kepada aliran falsafah dan kategori ilmu falsafah. Di samping itu, perbincangan berkaitan seni dan kaedah berfikir turut dimasukkan sebagai panduan tentang kepentingan hujah dalam membuat inferens untuk mengelak prasangka dan bias dalam keputusan yang diterima dan dihasilkan. Selanjutnya huraian berkaitan asal usul manusia, hakikat insan, konsep insan kamil dan sejahtera diketengahkan agar semua individu memahami tugas dan fungsi yang perlu dilaksana berpandukan saranan agama masing-masing. Buku ini turut memberi fokus kepada penjelasan tentang metafizik, teori hubungan insan dan Tuhan serta teori hubungan insan dan alam. Selain itu, untuk mengukuhkan ilmu yang dimiliki, buku ini mengupas tentang epistemologi (teori ilmu) yang berkisar tentang sifat, syarat, ciri, sumber dan batas ilmu yang boleh diketahui oleh manusia. Tambahan, setiap manusia dihadapkan dengan pelbagai ideologi semasa yang sukar untuk dipudarkan antaranya ialah idea sekularisme iaitu pemisahan antara aspek wahyu dan akal. Buku ini diakhiri dengan topik dekolonisasi bagi membebaskan minda individu daripada dipengaruhi oleh penjajahan minda yang berunsurkan pembaratan atau kebebasan tanpa sempadan.

GOVERNMENT AND POLITICS

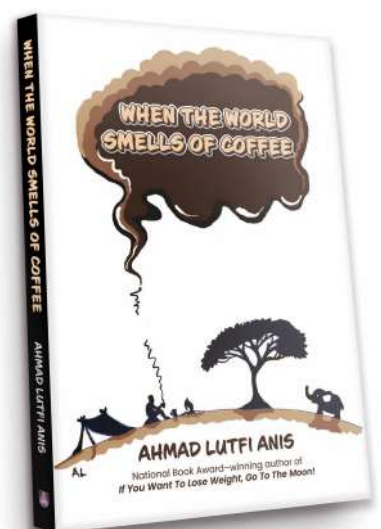

THE British Westminster system, as it is applied in Malaysia, else known as democratic parliamentary system, is modelled after the United Kingdom's system i.e. Constitutional Monarchy and the Bicameral system. This book highlights the aspects of government and politics in relation to the Westminster system, with a special focus on traditional and Islamic values in the Malaysian government administration. The chapters are designed in a way to enable readers to understand the differences of Malaysia's government and politics, and similarities, with those of the other countries, particularly the United Kingdom and the United States of America. The deliberation of the set-up and dynamics of the Malaysian democratic system, the governments, and the organs therein form the essence of this book. It captures, describes and sheds light into how the governments arms, agencies and instruments play their roles. This is further substantiated with general and comparative illustration, where and when necessary, to the Malaysian government.

WHEN THE WORLD SMELLS OF COFFEE

DAMA is a young man pursuing his dream of obtaining a doctorate degree at a public university. He maintains a close relationship with his grandfather, whom he greatly admires and constantly seeks motivation, wisdom, and advice. His supervisor, Dr. Rajesh is an Indian expatriate, a unique character who Damai found to be out of the ordinary, witty, and possesses his own brand of philosophy to life. The three men have one thing in common - their love for coffee. *When the World Smells of Coffee* reassures that it takes more than books and coffee to discover the true meaning of the quest for knowledge and unlock the secrets to understanding the world around us.

AKU, SKIZO-AFEKTIF: SEBUAH PERMULAAN KISAH DEPRESI & PUISI

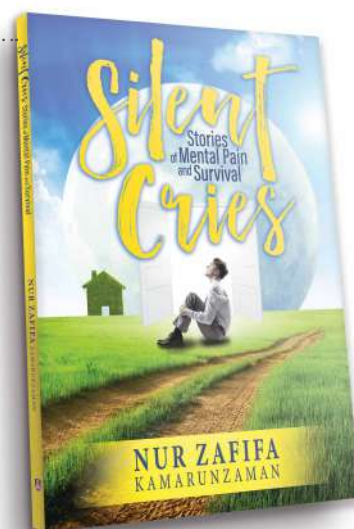

KURANGNYA pendedahan masyarakat tentang masalah mental dan depresi menyebabkan wujudnya pelbagai stigma yang boleh menyebabkan pesakit mengelak untuk berbicara tentang penyakit ini secara terbuka. Namun, besar harapan penulis agar masyarakat lebih memahami apa sebenarnya yang dilalui oleh seorang pesakit dari segi emosi dan juga fizikal melalui penulisan santai **AKU, SKIZO AFEKTIF: Sebuah Permulaan Kisah Depresi dan Puisi**. Karya ini merupakan sebuah jurnal kisah depresi yang direncanakan sebaik mungkin untuk dikongsi supaya pembaca terutamanya mereka yang berkait rapat dengan pesakit mental (ibu bapa, pasangan, ahli keluarga, sahabat dan lain-lain) dapat memahami dengan lebih dekat perihal depresi dari persepsi seorang pesakit. Penulis menceritakan pengalaman dari awal mengalami simptom, perubahan emosi, gangguan penyakit sehinggalah berjaya didiagnos dan selanjutnya berjaya mendapatkan rawatan mereka yang pakar. Moga karya ini dapat membantu serta memberi kekuatan dan sokongan yang tidak berbelah bahagi buat mereka yang sama-sama menghadapi masalah mental dan depresi. Besar harapan seorang yang menderita penyakit ini supaya mereka dapat menjalani kehidupan seadanya di samping mendapatkan bantuan yang sewajarnya daripada keluarga, masyarakat dan juga ahli profesional.

BAYU | 188 muka surat | ISBN 978-967-363-942-7 (RM44.00) | eISBN e 978-967-363-897-0 (RM30.00)

SILENT CRIES: STORIES OF MENTAL PAIN AND SURVIVAL

IS based on true stories which is composed of the author's fieldwork. The effort of documenting the stories of depression survival perceived as one of the author's advocacy to allow the public to understand the hardship of depressive survivors in their daily lives. This collection highlights that financial constraint, workplace stress, a broken relationship, abuses, and superstitious fear are among the socioecological factors that lead to depression. However, depression is not the end of the world. It is not a lonely journey going through the twists and turns of living with depression. There is always help available around us.

SOLID WASTE MANAGEMENT SCENARIOS AND EMERGING TECHNOLOGIES

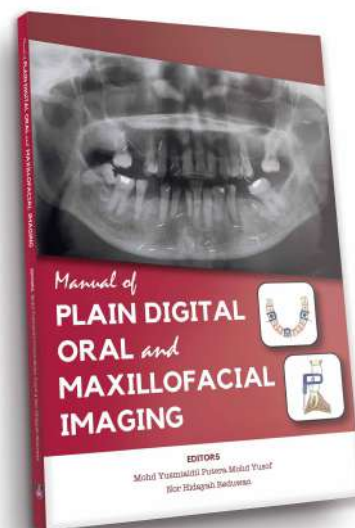

CITIES are fertile ground for science and technological innovation, economic growth, acculturation, and overall individual creativity. However, cities are also places where a myriad of problems, ranging from pollution, environmental degradation, indiscriminate dumping of waste, crime, and unemployment, just to mention a few, are concentrated. Environmental conservation anywhere is incomplete if it lacks efficient solid waste management. The more industrialised and commercialised a city is, the greater the solid waste challenges, as industries and other commercial activities produce a lot of waste. This book is designed to help students, planners, waste management companies, staff of local governments, and other relevant stakeholders in solid waste management (SWM) understand some of the basic concepts in municipal solid waste (MSW) management. It highlights solid waste management scenarios in developing nations (Malaysia and Thailand) and developed nations (the United States of America). Also, how emerging technologies (smart waste technologies) have been deployed in solid waste management to address some of the challenges faced by the traditional method of waste management is examined. By the time the reader is through with the book, it is expected that his/her knowledge on the best practices in solid waste management would be enhanced.

NOR EEDA HAJI ALI, NURAIN MOHD TALMIZI
70 pages | ISBN 978-629-496-049-7 (RM39.00) | eISBN e 978-629-496-010-7 (RM37.00)

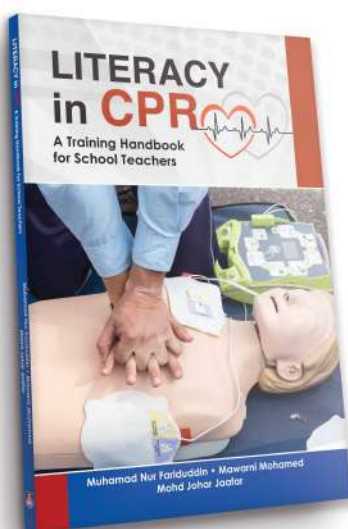

MANUAL OF PLAIN DIGITAL ORAL AND MAXILLOFACIAL IMAGING

THIS book explores the dynamic landscape of radiological imaging within the realm of oral and maxillofacial healthcare. In recent decades, the integration of digital technologies has revolutionised the field, offering clinicians enhanced diagnostic capabilities, improved patient care, and greater efficiency in managing complex oral and maxillofacial conditions. This book delves into the myriad facets of digital oral and maxillofacial radiology, encompassing both the foundational principles and the latest advancements in imaging modalities, techniques, and clinical applications. The content offers practical solutions and a comprehensive examination of digital radiographic technologies primarily based on sensors as receptors to replace the old practice of using analogue films. With various topics such as intraoral imaging, panoramic imaging, paedodontic imaging, endodontic imaging, and special consideration imaging, readers will gain a profound understanding of how these tools empower practitioners to accurately diagnose pathology, plan treatments, and monitor patient outcomes with unprecedented precision.

LITERACY IN CPR: A TRAINING HANDBOOK FOR SCHOOL TEACHERS

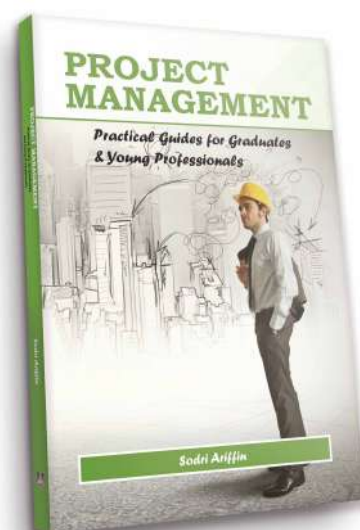

THIS handbook was designed and written for all school teachers. Teachers should acquire adequate knowledge and skills to provide effective resuscitation, as they are often the first to identify the occurrence of cardiac arrest in any medical emergency within a school setting. Despite the abundance of CPR-related sources available, it was designed with content and coverage explicit for medical sciences backgrounds; therefore, there was a need for a training handbook that was written for the introductory learner, which covers the fundamentals at a reasonable depth. This handbook describes the steps and processes involved in acquiring, retaining, and executing the most effective method for rendering Basic Life Support (BLS). The handbook, however, is not intended to be used as a single resource; additional hands-on practice is very important and should be accompanied simultaneously to ensure the successful acquisition of skills and knowledge.

BODYWEIGHT EXERCISES & FITBALL

THIS book serves as a comprehensive guide for beginners, focusing on bodyweight and fitball exercises to target the upper and lower body muscles. It begins by outlining the advantages and disadvantages of bodyweight exercises, along with safety considerations for beginners starting an exercise programme. Understanding the muscles' functions is emphasised as a crucial foundation for effective exercise performance. The book is structured into chapters, with the first one introducing the muscle groups of the upper and lower body. The second and third chapters provide detailed step-by-step instructions and illustrations for upper body, core region, and lower body exercises, both with and without a fitball. Finally, the fourth chapter offers essential guidelines for beginners to minimise the risk of injury during their exercise journey. With this comprehensive information, beginners can confidently engage in safe and effective workouts to achieve their desired fitness goals.

FIRST AID A GUIDE FOR PHYSICAL & HEALTH EDUCATIONS

THIS book was written and designed to pursue careers in PHE education. There are many modules, guidebooks, handbooks, or guidelines in first aid designed with content and coverage explicit to a medical sciences background. Therefore, there was a need for a reference book that was written for the introductory learner choosing a career in education, a book that covered the fundamentals at a reasonable depth to satisfy the needs of these learners in a one-semester course. This book will guide you along a journey of understanding the fundamentals and management of a particular disease, disorder, or emergency daily. It is written in short, clear, concise, and easily understandable scientific language and presupposes no previous medical science exposure. The writing style and presentation will assist introductory learners with limited science backgrounds in comprehending the basic concepts of first aid.

PUSAT PENYELIDIKAN PERTANIAN TUN RAZAK (PPPTR) TUN RAZAK AGRICULTURAL RESEARCH CENTRE FOR SUSTAINABLE PLANTATION, AN EPIC GEM OF MALAYSIAN OIL PALM ECOSYSTEM

PUSAT Penyelidikan Pertanian Tun Razak (PPPTR) or Tun Razak Agricultural Research Centre is located bordering Jerantut and Jengka, Pahang. This research centre was established in the year 1968 and inaugurated by Malaysia's second Prime Minister, Y.A.B. Tun Abdul Razak Hussien on 3rd February 1972. PPPTR area consists of offices, residential neighborhood, resort, golf courses, and facilities, including clinics and schools, all of which are surrounded by modified agricultural landscapes and forested edges. The naturally enhanced landscape includes oil palm plantations and orchards that have a great impact on the economic sector. Since its establishment about 55th years ago, the diversity of PPPTR has been documented independently. The mixed landscape of agriculture, settlement, and forest in PPPTR provides sources of economic and social development as well as various floral and faunal species. These encapsulate all the elements of Environmental, Social, and Governance (ESG) that align with the sustainable plantation model.

The PMX, YAB Dato' Seri Anwar Ibrahim signed the "Pusat Penyelidikan Pertanian Tun Razak (PPPTR) Tun Razak Agricultural Research Centre For Sustainable Plantation, An Epic Gem Of Malaysian Oil Palm Ecosystem" coffee table book on Festival FGV 2024.

WORKBOOK ON ORAL BIOLOGY

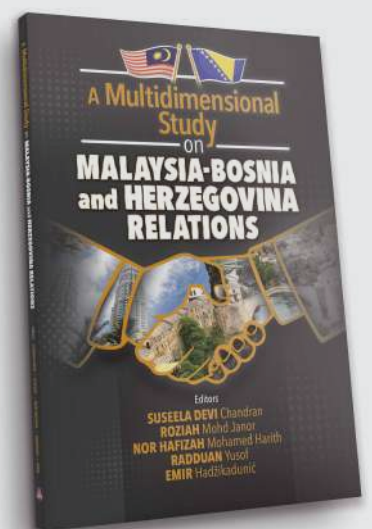

THE *Workbook on Oral Biology* is a basic guide for undergraduate dental students at the preclinical level of the study. The workbook is stating the objectives and procedures of the practical sessions and relating the importance of practical contents and methods to the future clinical settings. The book aims to help the students intensively comprehend the related taught basic science subjects and develop critical thinking and analytical skills through practically applying the fundamental knowledge. This workbook is covering histology of oral tissues, skull demonstration, temporomandibular joint and muscles of mastication, tooth development stages, separation of enamel and dentine, calcium and phosphate determination experiments, oral microorganisms, Stephan's curve, histology of salivary glands, and salivary pH and flow rate.

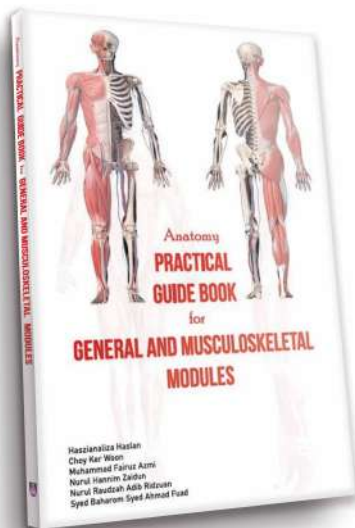

KHOR GOOT HEAH, HASNAH BEGUM SAID GULAM KHAN, LUAY THANOOM YOUNIS, KAZI AHSAN JAMIL | 100 pages | ISBN 978-967-363-853-6 (RM31.80)

A MULTIDIMENSIONAL STUDY ON MALAYSIA-BOSNIA AND HERZEGOVINA RELATIONS

THIS book is a collection of seven chapters that offers a multifaceted analysis of connections between Malaysia and Bosnia. It offers an interesting and informative account of historic relations between the two countries. Aided by the insight from scholars and expertise from both countries, this book outlines the primary issues that formed and shaped the relations between Malaysia and Bosnia. The themes are organised based on the international relations setting. This edited volume has chapter contributions with three chapters written by Malaysian academicians, and another four written by Bosnian scholars and practitioners. Each chapter is self-contained and explores current themes like regionalization, trade, socio-cultural, and diplomatic relations. Most of the topics are not much researched or published previously. Consequently, this book offers a fair representation of both countries' perspective on the topics that have been at the centre of the bilateral relations over the past three decades. This book will be of interest to students of regional politics, state-building, foreign policy, and International Relations.

ANATOMY PRACTICAL GUIDE BOOK FOR GENERAL AND MUSCULOSKELETAL MODULE

THIS practical guide provides structured learning outcomes that can be used as a main resource in anatomy laboratory session especially for undergraduate medical, dental and health sciences students. Histological features and concise key point in gross anatomy are concisely described to serves as a guide to facilitate students during their laboratory sessions. It is design as a simple and user friendly guide to ensure students achieve the fundamental learning outcomes. It also can be used to help students practice answering questions in examination and acts as complimentary resource for any available anatomy textbooks or atlases.

LABORATORY MANUAL APPLIED MECHANICS

THIS Applied Mechanics Laboratory Manual acts as a comprehensive reference, teaching and learning material to support and enhance the students knowledge in engineering mechanic experiments. In this manual three main laboratories on applied mechanics are presented which are Material Science, Strength of Materials and Dynamics. This manual supports the idea from the Engineering Accreditation Council (EAC) in providing an open ended laboratory material to improve students cognitive and psychomotor attributes. This manual comes with proper application examples and case studies that is related to the discussed topic. A brief introduction of each experiment is given as well as the key principle of the subject matter that students should know about regarding the experiments. In addition, all assessment criteria's such as the rubric of assessment are made available in assisting students to prepare their coursework report. This will be the one and only manual that students will need in order to complete and succeed the Applied Mechanics Lab course.

40 KEMAHIRAN ASAS PENYELIDIKAN SARJANA & PhD

BUKU ini adalah buku yang wajar dimiliki oleh pelajar atau calon pelajar yang bakal melanjutkan pengajian penyelidikan sarjana mahupun PhD. Buku ini memberi pendedahan awal kepada calon pelajar untuk bersedia dari segi kemahiran asas yang diperlukan dalam penyelidikan sarjana dan PhD, serta mampu memberikan alternatif dan panduan umum. Turut sesuai digunakan oleh pelajar yang tiada pengalaman dalam penyelidikan untuk mendapatkan pendedahan yang baik tentang perkara asas dalam penyelidikan. Secara umumnya, buku ini ditulis mengikut fasa yang berbeza iaitu:

- (i) fasa sebelum pengajian,
- (ii) fasa semasa pengajian, dan
- (iii) fasa selepas peperiksaan lisan (viva).

Buku ini juga penting dalam membantu pelajar terutama dalam penyediaan kertas cadangan penyelidikan, penulisan tesis, pembentangan pelajar dan sebagainya. Sebanyak 40 kemahiran asas dalam penyelidikan sarjana dan PhD boleh diadaptasi atau disesuaikan oleh pelajar dalam bidang pengkhususan mengikut keperluan semasa pihak universiti.

PRESENTING YOUR RESEARCH

In academia, oral presentation of a research is of great importance. Often, it is the aspect of the research process that determines whether the study will indeed have an impact in its field and the society in general, as it is the oral presentation that introduces it to them. A good research may not be brought to the fore successfully if not presented well. It may not be too much to say that the oral presentation of a research can make or break a researcher. The chapters in this book aim to enhance the researcher's ability to deliver a good presentation. Examples of language expressions, good organisation of information and effective delivery are provided. The guidelines provided will assist the presenter from the preparation stage right to the actual presentation, giving recommendations to ensure maximum impact on the audience. The book also provides criteria for evaluating presentations, which will help the presenter go a step beyond audience expectations.

THE REALM OF NON-PROFIT ORGANISATIONS IN MALAYSIA

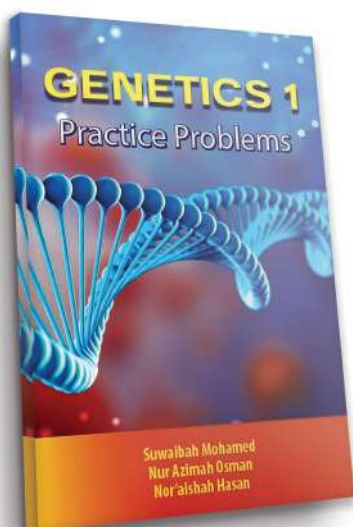

THIS book discusses the essential elements of non-profit organisations (NPOs), emphasising important issues in terms of governance, framework as well as organisational background of charitable bodies. Each area is written in simple English and presented in a concise manner. Masters and doctoral students in the field of social responsibility, governance and the third sector of NPOs would find the book of valuable guidance, as the book was well researched based on the doctoral thesis of the author on NPOs in Malaysia, by using a practical approach on the challenges faced by NPOs, highlighting the case of Pertubuhan Kebajikan Anak Yatim Islam (PKAYIS). In Malaysia, NPOs must not comply with any mandatory regulations due to its tax-exempt status. This easy-to-read book provides the foundation in the wake of new regulations for NPOs as other developed countries.

GENETICS 1: PRACTICE PROBLEMS

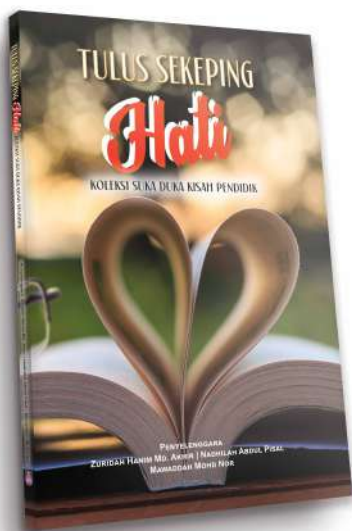

GENETICS is the study of how traits are inherited. In large part, genetics is an empirical science. Analysis methods are an essential component in genetics. In recent years, the evolution of the discipline has been staggering, but the fundamental mechanics of genetics should not be overlooked. Students always having trouble performing genetic analysis. This book's sole purpose is to make students more adept at studying genetic problems. This book is designed to prepare student with their understanding on the genetic subject.

The same format is used throughout the entire book. A brief introductory and concise note on genetic concepts were included. The text material is followed with a relevant question and its solution. Questions provided in this book were used to test students' understanding of each topic in genetics. Answer scheme also were attached together with this worksheet book which helps students with step by step example on how to answer the question. In addition, glossaries are also included to help students on the description of specific terms in genetics to facilitate students' understanding. The worksheet book is presented in a logical sequence with simple to challenging question that valuable to help matriculation, college and university student in understanding in genetics solving problems.

TULUS SEKEPING HATI: KOLEKSI SUKA DUKA KISAH PENDIDIK

KITA tidak mampu berdiri sendiri kerana kejayaan kita hari ini berkat doa guru, ibu dan ayah serta mereka di sekeliling kita. Pengorbanan yang mereka berikan tidak mampu dibalas dengan wang ringgit dan harta yang bernilai melainkan doa dan harapan agar semoga setiap jasa yang dicurahkan setulus hati itu dapat dibalas dengan pahala dan kebaikan. Itulah kisah suka dan duka kehidupan yang dikongsi oleh 16 orang penulis ini. Mereka menukikan kisah-kisah benar insan yang hebat dan memberi impak bermakna dalam kehidupan mereka. Kisah ini mungkin kisah insan biasa tetapi bertindak secara luar biasa dan mampu memberi inspirasi kepada pembaca. Mereka adalah guru super dalam universiti kehidupan.

CREME BRULEE II

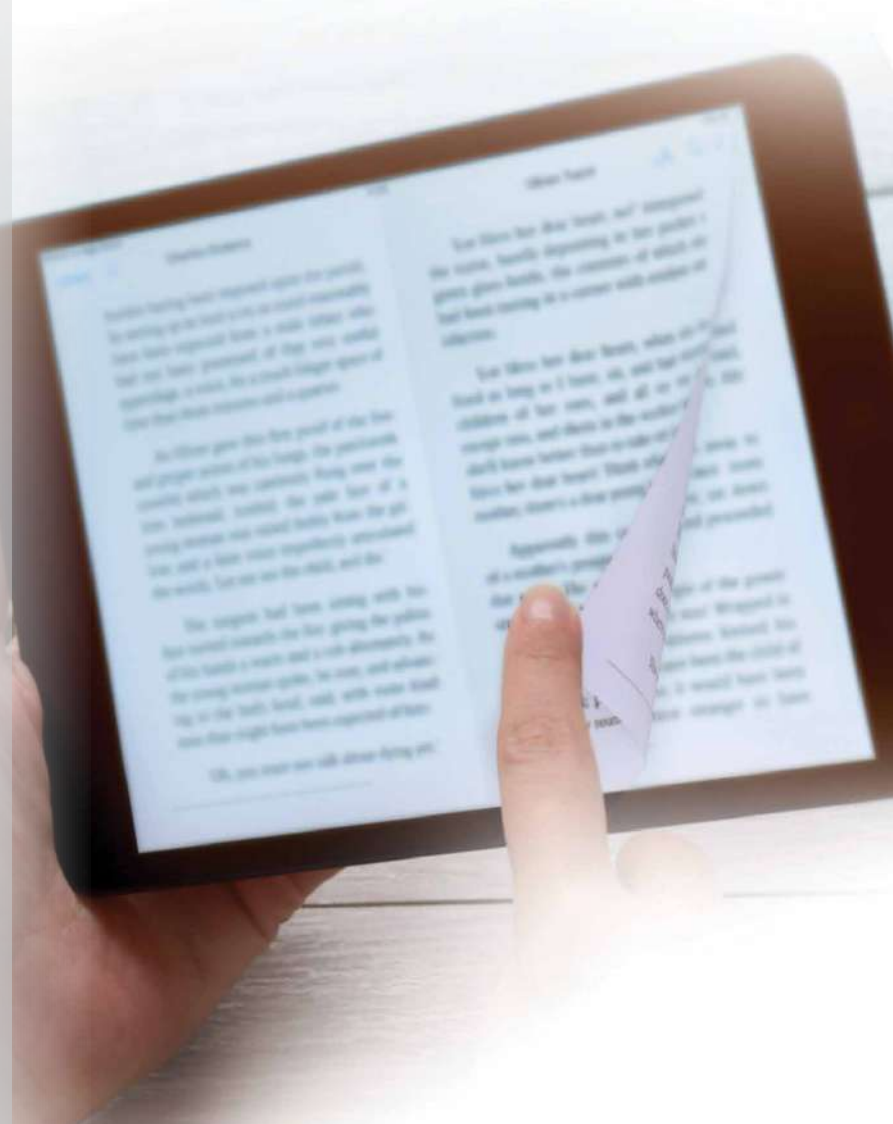

THIS book is specifically written for students who will be taking French as a third language at Universiti Teknologi MARA. **Creme Brulee II** introduces the basis for learning the French language. It is an introduction to the French language and suitable for beginners. It was written to meet the needs of 28 teaching hours in one semester. This book contains four basic topics which are Nous Sommes Lundi, Mes preferences, Bon Voyage, and Le Shopping. Each topic consists of a dialogue, followed by notes on vocabulary, grammar, culture and proverbs. Exercises and samples of test questions are also included to reinforce students' understanding. **Creme Brulee II** starts with the basic needs of students and puts them in everyday situations. Thus, they will be able to participate in basic French conversations, such as talking about their birthdays, preferences, travelling and shopping. This will give them the necessary tools for immediate communication.

KESELAMATAN NEGARA TANGGUNGJAWAB BERSAMA PERANAN, ISU DAN CABARAN

BUKU *Keselamatan Negara Tanggungjawab Bersama: Peranan, Isu dan Cabaran* merupakan naskah rujukan ilmiah bagi segenap lapisan masyarakat tentang agenda keselamatan negara yang diterajui oleh Majlis Keselamatan Negara (MKN) seiring dengan pelaksanaan Dasar Keselamatan Negara (DKN) 2021-2025. Buku daripada hasil penyelidikan ini menggarap nasii uapaian kajian yang telah uijaiarkan pada tahun 2022 dengan kerjasama strategik penyelidikan antara MKN dan Universiti Teknologi MARA (UiTM).

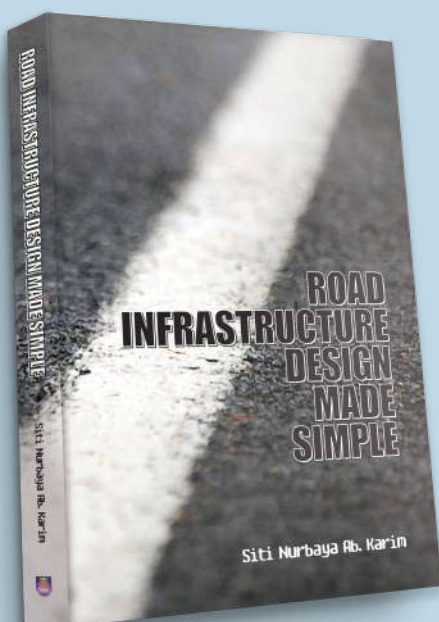

Buku ini menyampaikan naratif keselamatan negara yang diperoleh daripada bukti empirikal melalui penyelidikan dari lensa tiga kumpulan masyarakat: (1) kumpulan penguat kuasa dan pelaksana yang berurusan dengan keselamatan negara; (2) pemimpin komuniti; serta (3) masyarakat Malaysia. Penerokaan dapatan kajian yang kaya lagi mendalam dengan adaptasi metodologi penyelidikan yang kukuh telah membuahakan suatu naratif keselamatan negara yang komprehensif dan menyeluruh bagi pembacaan umum seluruh rakyat Malaysia. Buku ini juga akan menjadi rujukan ilmiah kepada kementerian dan agensi untuk lebih memahami dan mendalami agenda keselamatan negara, peranan dan tanggungjawab yang digalas secara bersama, serta isu dan cabaran untuk ditangani.

ROAD INFRASTRUCTURE DESIGN MADE SIMPLE

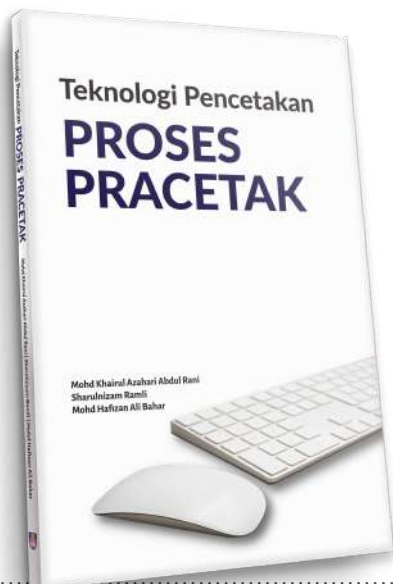

THIS is a unique textbook that presents geometric design of roads and highways and intersection design and control systems from the perspective of Malaysian settings. Readers should be able to acquire basic knowledge and understanding of the common type of traffic conflicts, the intersection and interchange design, basic components of the traffic engineering control systems and roundabout design. It includes an introduction to road design and location, the road classification system applied in Malaysia, and the fundamental elements of sight distance, horizontal and vertical alignments. At the completion of these chapters, readers should also be able to define each of the cross sectional elements of roads and their impact on the road design. It provides many useful and interesting coloured photographs to help readers learn more about geometry of roads and highways and intersection design and control systems. It is specially intended for Diploma students in civil engineering, specializing in highway and transportation engineering area, as well as for the general public. It will be equally useful as a reference source for lecturers and young and practising engineers. It is the essential guide for beginners in highway and traffic engineering!

TEKNOLOGI PENCETAKAN: PROSES PRACETAK

DI luar sana terdapat pelbagai buku ilmiah dan rujukan tentang bidang teknologi pencetakan dalam bahasa Inggeris. Buku ini dihasilkan bagi meningkatkan kefahaman pelajar dan pengguna teknologi pencetakan dalam bahasa Melayu. Buku ini memfokuskan proses pracetak yang merupakan proses utama dalam teknologi pencetakan produk dan reka bentuk grafik. Adakah anda tahu bagaimana produk pencetakan dihasilkan? Dengan teknologi pencetakan, anda mampu mencetak beribu-ribu produk seperti pembungkusan, majalah, buku, poster, risalah, nota dan pelbagai lagi. Kemampuan teknologi pencetakan tidak dapat dinafikan kepentingannya dalam memperluaskan bidang komunikasi pada semua golongan ini.

EXPLORING SCIENCE THROUGH EXPERIMENTS: THE BASICS IN PHYSICS

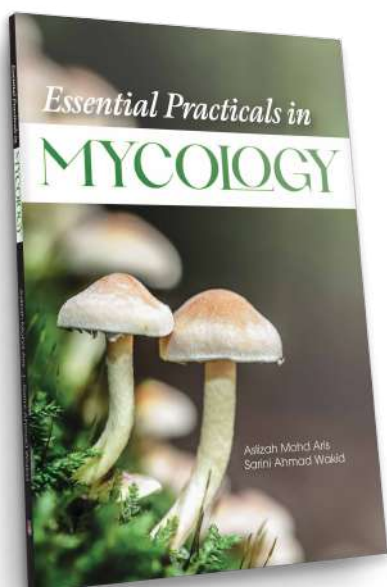

THIS is a laboratory manual that guides students through fundamental physics concepts using hands-on experiments. Topics include Basic Measurement, where students learn accurate measurement techniques and Measuring Velocity from Displacement-Time Graph to understand motion analysis. Newton's Second Law explores force and acceleration, while Energy and Power focuses on energy transformations. The manual covers Density and Relative Density for material comparison, Calorimetry for heat transfer and Snell's Law to study light refraction. It also includes experiments on Ohm's Law for electrical resistance and Magnetic Field Pattern of a Bar Magnet to visualize magnetic fields. This manual is designed for pre-diploma courses but is adaptable for foundation studies, requiring SPM-level mathematics and science skills or equivalent.

ESSENTIAL PRACTICALS FOR MYCOLOGY

THIS book offers an orderly way of learning the practical in mycology, with first hand exercises that entail fungal isolation, establishment of pure cultures, and specialised methods of dual and multiple culture inoculations, and preservation. It also discusses new uses of fungi in industry for making fungal inoculum and for making tempeh linking theory into practise. Hazard identification in each experiment as well as accuracy and analysis make certain the students develop sound practical skills in line with the goal of enhancing the study of fungal biology. For method standardisation both in academic and industrial mycology, this manual provides step-by-step protocols, objectives of each of the steps and linked demo videos for reinforcement. Be it keying out mushrooms; screening biological activity; or growing fungi for commodity production; this book provides the required hands and heads to engage the profession and science of mycology.

DISCRETE MATHEMATICS FOR BEGINNERS

THIS book addresses fundamental concepts essential for novices enrolled in a discrete mathematics course. Beginning with Set Theory, the book explains the fundamentals of sets, their operations, laws, and real-world applications. It then delves into counting principles, offering discussions on permutations, combinations, and the Binomial Theorem. It continues with Functions and Relations, focusing on understanding Cartesian products, relation properties, and functions. The chapter on Directed Graphs presents fundamental concepts and properties related to graphs and paths, trees, Eulerian and Hamiltonian paths, and circuits. Next, the chapter on logic discusses logical statements, truth tables, laws of logic, the construction of sound arguments, and rules of inference. Finally, Basic Number Theory is illustrated through sequences and summations, mathematical induction, and recursive definitions. With succinct summaries and revision exercises, the book is a comprehensive companion in equipping the readers with the skills needed to master key topics in discrete mathematics.

PENGENDALIAN DAN PENGURUSAN KESIHATAN MENTAL PELAJAR

MASALAH kesihatan mental boleh dialami sesiapa sahaja tanpa mengira usia, bangsa dan agama mahupun tahap ekonomi atau pendidikan. Stigma dan salah faham dalam kalangan masyarakat menyebabkan individu yang mengalami masalah kesihatan mental tidak tampil mendapatkan bantuan profesional yang mereka perlukan. Bagi menangani masalah ini, semua pihak berkepentingan perlu bekerjasama untuk mendalami nilai dan komitmen yang diberikan kepada kesihatan mental, membentuk semula persekitaran yang mempengaruhi kesihatan mental, mengukuhkan sistem pengurusan kesihatan mental dan mempertingkatkan kualiti perkhidmatan rawatan, bantuan dan sokongan pesakit. Buku ini diwujudkan bertujuan memastikan pengurusan masalah kesihatan mental dalam kalangan warga Universiti khususnya para pelajar ditangani dengan cekap, menyeluruh dan berkesan. Penerbitan buku ini adalah antara inisiatif pihak Universiti untuk melahirkan graduan yang sihat fizikal dan mental, mampu mencapai kecemerlangan seterusnya menyumbang kepada pembangunan diri, masyarakat dan negara.

KOLEKSI BERIBU-RIBU PANTUN UiTM DI HATIKU (JILID 1 & 2)

HIMPUNAN beribu-ribu kenangan, kisah suka duka, kisah lucu, rahsia dan harapan warga UiTM telah dirakamkan dalam nukilan pantun empat kerat. Pantun dan budaya Melayu berpisah tiada sejak dahulu lagi. Namun kini, ia seakan dipandang sepi. Seni berpantun tidak lagi diamalkan sebagaimana zaman dahulu kala. Seni ini seharusnya dipelihara biarpun zaman beralih dan generasi bertukar ganti. **Buku Koleksi Beribu-Ribu Pantun UiTM di Hatiku** Jilid 1 dan Jilid 2 ini telah berjaya menghimpunkan 16,828 rangkap pantun yang mengungkapkan rasa kasih, sayang, cinta dan ingatan terhadap UiTM. Semoga koleksi beribu-ribu pantun ini dapat mengembalikan nostalgia terhadap UiTM dan ITM sekali gus menjadi pembakar semangat warganya untuk terus mengukuhkan lagi UiTM sebagai universiti terbilang dan cemerlang.
